This is the first year that bank holding companies and operating banks have reported annuity fees and commissions to the government. Nearly 400 BHCs reported some annuity income. The rankings here are based on an examination of recent Federal Reserve Board Y-9 filings. (One BHC likely to be included in the top ten, HSBC

North America, had not yet filed its report.) A more comprehensive list will appear in an upcoming issue of [Singer's Annuity & Funds Report](#).
